

Lake Norman Hematology Oncology Specialists

NOTICE OF SEPARATE BILLING

Your provider may order laboratory services for you during your visit. Although the services are performed in this facility, some labs are sent off site to be processed. If there are any monies owed from those services, you will receive a separate bill from that lab.

Billing for laboratory services is done through LabCorp, Miraca, or Myriad; not through this office. Please be advised that some insurance companies mandate where your lab tests can be performed. The physician in this facility may be in-network with your insurance company but these laboratories may not.

Some insurance companies may also apply lab charges to your deductible. If you have questions as to whether your charges will be managed in this manner, please consult with your insurance company.

Below are the billing phone numbers for each off site laboratory:

LabCorp: 800-762-4344

Miraca: 888-344-1160

Myriad: 800-469-7423

Thank you for choosing Lake Norman Hematology Oncology Specialists
